

JOHN EHIABHI OBOZE

Senior Data Analyst | Business Intelligence & Data Governance | Turning Complex Data into Actionable Business Decisions

obozejohn@gmail.com | +234 706 202 2778 | Lagos, Nigeria | [linkedin.com/in/john-ehiabhi-oboze](https://www.linkedin.com/in/john-ehiabhi-oboze) | john8808.github.io/Data-Analytics-Portfolio-

PROFESSIONAL SUMMARY

Senior Data Analyst with 8+ years of progressive experience turning complex, structured and unstructured data from multiple internal and external sources into reliable, actionable intelligence that supports business strategy, operational decision-making, research, reporting, and digital data products. I build executive-level Power BI dashboards, run SQL-based data extraction and modeling, and make sure every analytical output is accurate, traceable, consistent, and timely enough to support management and client decisions. Currently seconded to MTN Nigeria, I combine data-driven analysis with team leadership, work that drove a 25% improvement in SIM registration data accuracy and lifted team SLA performance from 35% to 83%. Comfortable with KPI monitoring, data governance, root-cause investigation, and process improvement, and just as comfortable explaining what the data means to people who aren't analysts themselves.

CORE COMPETENCIES

Data Analysis & Intelligence: Transforming structured & unstructured datasets into actionable business intelligence; trend, pattern & anomaly detection

Data Governance & Quality: Data cleaning, validation, traceability, consistency, and quality assurance across multi-source datasets

Dashboard & Reporting: Power BI, Advanced Excel (pivot tables, Power Query), executive KPI dashboards, automated reporting

Querying & Platforms: SQL, CLM/DCLM platforms, CRM systems, data modeling

Stakeholder & Client Communication: Presenting analytical findings and recommendations to management, clients, and non-technical audiences

Process Improvement & Leadership: Designing efficient data workflows, root-cause analysis, team leadership, KPI/SLA performance management

Business Intelligence & Forecasting: Insight generation, performance reporting, and forecasting to support research and operational decisions

PROFESSIONAL EXPERIENCE

Data Analyst and Team Lead

Sept 2023 to Present

- Collect, extract, clean, validate, and analyze structured and unstructured data from multiple internal and external sources to ensure accuracy, consistency, and reliability of all analytical outputs.
- Design and maintain Power BI dashboards, reports, and data visualizations that transform complex datasets into reliable, actionable intelligence supporting business strategy and operational decision-making.
- Query, reconcile, and analyze large datasets using SQL and Advanced Excel to identify trends, patterns, anomalies, and performance gaps across the business.
- Track and report on KPIs, SLAs, productivity, and quality metrics, delivering timely, traceable insights that inform management and client decision-making.
- Translate complex analytical findings into clear, business-focused reports and recommendations for both technical and non-technical stakeholders.
- Build and maintain data models and automated reporting processes, reducing manual reporting effort and improving turnaround time on research and reporting requests.
- Conduct root-cause analysis and investigate data discrepancies, operational issues, and performance variances to support continuous improvement.
- Prepare executive-level performance summaries and respond to ad-hoc data requests, providing timely analysis for strategic and operational digital data products.
- Extracted and analyzed sales performance data using Excel and Power BI, surfacing revenue trends, growth opportunities, and underperforming segments for senior stakeholders.

- Design and maintain executive KPI dashboards that surface real-time performance trends and anomalies for senior stakeholders and regional management.
- Identify data irregularities, escalate risk cases, and present findings with actionable recommendations, directly reducing rejected records and escalation rates.
- Manage monthly payroll data reporting for the team with precision, ensuring accuracy and on-time delivery.

Customer Data Analyst, SIM Registration

Aug 2018 to Sept 2023

- Reviewed and verified customer identity documentation for SIM card registration, ensuring strict adherence to NCC regulatory standards.
- Analyzed customer database records using CLM & DCLM platforms to detect inconsistencies, data irregularities, and risk patterns, escalating findings to compliance with documented evidence.
- Identified and resolved duplicate, inconsistent, and potentially fraudulent customer records, directly reducing rejected SIM registration data through real-time correction.
- Analyzed customer acquisition trends and data irregularities, contributing to internal compliance reporting and improved data governance.
- Delivered data analysis and reporting that improved customer service processes, outcomes, and verification accuracy across multiple channels.

Sales Analyst

May 2016 to June 2018

- Extracted and analyzed sales performance data using Excel to identify revenue trends, growth opportunities, and underperforming product segments.
- Produced daily, weekly, and monthly management reports with charts and visualizations, communicating key trends to non-specialist stakeholders for informed business planning.
- Built interactive dashboards to track KPIs, sales targets, and team productivity, giving management a real-time view of performance metrics.
- Conducted customer behavior and retention analysis, translating findings into actionable recommendations for sales and marketing teams.
- Established standardized data-handling processes that maintained rigorous accuracy and integrity across all reporting deliverables.

KEY ACHIEVEMENTS

- Elevated team SLA performance from 35% to 83%, a 48-point improvement, through structured, data-driven performance management that also helped drive a 15% uplift in customer satisfaction scores.
- Built a Power BI agent-performance dashboard that surfaced high-performing patterns across the team, increasing overall productivity by 20%.
- Designed and deployed a data quality control framework that reduced SIM registration inaccuracies by 25%, directly lowering regulatory risk exposure for MTN Nigeria.
- Delivered customer data analysis that contributed to a 10% increase in customer retention for MTN Nigeria.
- Sustained a 95%+ customer satisfaction rating over three consecutive years by consistently improving service delivery through reliable data reporting.
- Created a structured team training program that improved issue-resolution efficiency by 15% and reduced average handling time across the analytical unit.

TECHNICAL SKILLS

Analytics & BI Tools: Microsoft Power BI, Advanced Excel (Pivot Tables, Power Query, Dashboards), Data Visualization

Data Management: Data Cleaning, Modeling, Quality Assurance, Governance & Validation

Querying & Platforms: SQL, CLM & DCLM Platforms, CRM Systems

Reporting & Presentation: KPI Reporting, Executive Dashboards, Business Data Presentation

Productivity Suite: Microsoft Office (Excel, Word, PowerPoint), Google Workspace (Sheets, Docs)

Domain Knowledge: Telecommunications Data Operations, Customer Lifecycle Analytics, NCC Compliance

EDUCATION

Higher National Diploma (HND), Agricultural & Bio-Environmental Engineering Technology

Federal Polytechnic Auchi, Edo State | 2014 | Upper Credit: 3.04

National Diploma (ND), Agricultural Engineering

Federal Polytechnic Auchi, Edo State | 2011 | Lower Credit: 2.78

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Certified Data Analyst, 2025
- Leadership & Team Management, 2024
- Effective Communication, 2024
- Data Analysis & Reporting, 2023
- Telecommunications Operations, 2023
- Customer Service Excellence, 2022
- Customer Service Certification, 2020
- SIM Swap Certification, 2020
- HACCP Certification, 2019
- HSE Level 1 & 2 Certification, 2016
